

# PROHIBITED ITEMS LIST

United Nations  
Climate Change

COP29  
Baku  
Azerbaijan

The following list of prohibited items should be used as a reference document but is not considered an all-inclusive list. If Security personnel discover an item not listed here and the item causes concern, a UN supervisor should be immediately notified for a decision on the item. All items on this list will be retained for safeguarding. The items which are legal to possess in the Host Country will be returned to the rightful owner upon the departure on the same day at the exit (where items retained) of the venue. Uncollected items will be disposed of at the end of the day.

Some items listed here may be authorized to enter the Conference venue when appropriate. (As an example: workers entering the COP29 venue from a commercial firm expected at the conference site to perform construction work or repairs of facilities or equipment). When in doubt always consult the UN supervisor for clarification.
